If a decision on selection is necessary because the demand for childcare places exceeds the childcare capacity, the municipality in which the institution has its seat shall decide, at its own discretion.

(3) The maximum permitted group size must be observed. It amounts to half of the group size approved in the operating permit. The management of the institution may, in

2. That standing areas are designed such that a distance of 1.5 metres between people is guaranteed.

The indispensability of both legal guardians according to Sentence 2 is deemed to be the same if a person is a single parent and fulfils the requirements according to Sentence 2 Numeral 1 or 2. Legal guardians are equal to single parents if the other legal guardian is prevented from providing care for serious reasons; the decision to grant such an exemption shall be taken by the municipality in which the institution has its seat, subject to strict criteria. The existence of the prerequisites according to Sentence 2 must be proven by the presentation of a corresponding statement by the employer or the principal. In the case of self-employed or freelance workers, the certificate pursuant to Sentence 5 shall be replaced by their own assurance that the prerequisites pursuant to Sentence 2 are met. The legal guardians according to Sentence 2 and single parents according to Sentence 3 must also insure that family or other care is not possible.

1. For whom at least one of the legal guardians or the single parent is working in the critical infrastructure referred to in Paragraph 8 and is indispensable,
2. For whom the local public youth welfare body determines that participation in emergency care is necessary to ensure the best interests of the child, or
3. Who live in the household of a single parent.

If the care capacities of the facility are not sufficient to accommodate the children entitled to participate in accordance with Sentence 1 Numerals 1 to 3, the municipality in which the facility is located shall decide on the admission of the children at its due discretion.

(4) Extended emergency care generally extends to the period of operation of the facilities pursuant to Art. 1 Paragraph 1 or Art. 1a, which it replaces, and may also include holiday periods as well as Sundays and public holidays. It shall take place in the respective facility that the child has visited so far, by its staff and in permanently composed groups.

Exceptions to this rule shall be permitted only in duly justified cases and shall be decided by the management of the facility concerned in agreement with the sponsor of the facility and the municipality.

(5) The maximum group size permitted in extended emergency care is half of the group size approved in the operating licence for day-care facilities for children; in schools it is half of the relevant class division for the normal classes of the respective school type. The common safety instructions for day care facilities of the Kommunalverband für Jugend und Soziales Baden-Württemberg, the Unfallkasse Baden-Württemberg and the State Health Office Baden-Württemberg as well as the hygiene instructions of the Ministry of Education and Cultural Affairs for schools in their current version must be observed.
